

THE growkinder™ PODCAST

It's our pleasure to provide this brief media kit to introduce you to *Grow Kinder*, a first-of-its-kind social-emotional learning (SEL) podcast brought to you by Committee for Children, the global leader in research-based SEL programs. *Grow Kinder* is focused on elevating SEL through conversations with thought leaders in education, business, tech, and the arts who all have one thing in common: a dedication to growing kinder and helping others do the same.

As you develop your editorial content for the coming months, please consider featuring *Grow Kinder* and our hosts, who are available to speak with you about trends in SEL, innovations in education, the connection between SEL and workforce readiness, and much more.

Thank you for your consideration.

Warm regards,
Shauna McBride and Natalie Ceis
