

FREE Classroom Challenge—“Can’t Stop the Feeling” Treasure Hunt

Early Learning—Grade 8

Take Students on an Interactive Adventure

Find Your Favorite *Second Step* Characters and More!

To ring in the New Year, Committee for Children—including our *Second Step* Program and Mind Yeti teams—celebrated the many educators who support social-emotional learning with our first ever 360° video. Now we want to share the fun with your students!

In this classroom challenge, set to the song “Can’t Stop the Feeling” from the movie *Trolls*, teachers will use the 360° video to take students on a treasure hunt. Either in groups or as individuals, students will look for their favorite *Second Step* characters, like Puppy and Snail, plus *Second Step* skills, Troll wigs, beach balls, and more!

Level

This is fun for all EL–8 students! Teachers can determine which of the items from the list students should search for, as some items may be more challenging than others.

What Is a 360° Video?

It’s a video where we recorded in every direction. During playback, you can control the video at any time for a full 360° view. That means left, right, up, down, behind—you get to see it all.

Tip

Teachers may want to watch the video beforehand to acclimate themselves to the 360° navigation. See the following instructions for viewing options.

Instructions

View the YouTube video “**Thanking Educators with a New Year Celebration**” at <http://goo.gl/9qLoaT>.

1. For best results, project the video from your classroom computer. Navigate the 360° video with your mouse or trackpad so you and your students can look up, down, and all around for the many fun things there are to find.
2. Have students take out pencil and paper, which they’ll use to tally the number of items they find. Provide students with the selection of items they’ll be searching for.
3. Play the video and do your best to find all the items you can! (Note: There are no “right answers.” Just do your best and have fun!)

Key

Puppy = 10
Snail = 9
Committee for Children Heart Logo = 18
Mind Yeti = 6
Blue Troll Wig = 10
Beach Ball = 8
